## BILL DALTON KILLED.

The Notorious Outlaw Refuses to Surrender AND, RESISTING, DIES IN HIS BOOTS.

A Good Piece of Detective Work Followed by Prompt Action of the Officials—The Longview Bank Robbery Avenged.

PARIS, Tex., June 9.—The following telegram received here last night set the town agog:

ARMORE I T. JONES  
To J. S. Williams, United States Marshal, Paris, Tex.

Have got one of the Longview bank robbers. He was killed while resisting arrest. Positive proof he is Bill Dalton.  
(Signed) S. T. LINDSEY  
D. E. BOOKER  
Deputy Marshals

It has been known here for several days that the federal officials were in possession of some important information, but no tip could be had and reporters plied questions in vain. Since the capture, however, the lips of the officers are unsealed and the story is no longer a secret.

Last Monday two men went to Duncan, I. T., a town on the Rock Island railroad, and bought a wagon, some Winchester, ammunition, provisions clothing and other articles. They purchased lumber and employed a carpenter to build a house.

When they had got through they left, going east in the direction of Ardmore. After they were gone it was discovered that they had paid for all their purchases in bills which had been looted in the Longview bank robbery. This aroused suspicion. A telegram was sent to the bank giving the numbers of the bills. An answer came promptly that they were the missing bills. They looked like new bills except that they had been wet and crumpled.

The marshal's office here was immediately notified and a deputy was sent on the trail. Thursday a man and two women drove into Ardmore in the same wagon that the men purchased in Duncan. They bought a lot of wearing apparel for the women, men's clothing, several sizes too large for the man, a large quantity of ammunition, provisions and other articles. The man was known to the officers as a worthless sort of a fellow who never had any money, and his actions aroused suspicion. Some one looked into the wagon and found a five gallon keg of whiskey that had been purchased in Gainesville. Officers immediately arrested the man and women as whiskey peddlers.

Feeling sure that the parties had some connection with the Longview bank robbers, Deputy Marshals Lindsey, Booker, Leatherman, Denton and others started on the back track of the wagon the man and women came in. Yesterday they rounded up Dalton. He refused to be arrested and made fight, but it was a useless one, and when it was over the famous bank and train robber was a "good man."

Marshall Williams is on the Canadian river in search of the robbers, but a courier is going to him with all possible speed to notify him of the great work accomplished.

Instructions were wired to officers at Ardmore last night to have Dalton's body embalmed and it will probably arrive here Sunday.

## FIVE PERSONS INJURED

In a Wreck, the Result of the Late Washouts in Colorado.

DENVER, Col., June 9.—The Gulf train with passengers for Central City and Georgetown was wrecked in Clear Creek canyon, three miles west of Golden yesterday morning at 10 o'clock, and five persons were injured.

There is a sharp curve at that point, and the road-bed, which had been repaired from the recent washouts, was still soft. When the locomotive reached the curve the lower rail of the track sank and the engine, the separate baggage car and the combination baggage car and smoker left the track, one end of the smoker dropping into the creek. There was a tremendous crash as the smoker left the rails and turned partially over.

The locomotive, as it left the track, threw the fireman from his tender into the waters of the creek but he was pulled out without serious damage.

A special relief train arrived in Denver at 3:30 p. m. All the injured were taken to St. Luke's hospital.

## THE COUNTY MUST PAY

For Damages Done to Property by Striking Miners.

PITTSBURGH, Pa., June 9.—Within a few days suit will be entered against Allegheny county to recover damages for property destroyed by rioters along the Monongahela river, by the owners of mines and coal tips. Suits may also be entered by the National Tube Works Co., of McKeesport, for damages.

The county, it is claimed, will have to bear the loss in these cases under the special act which became celebrated after the riots of 1877. The best authorities do not seem to believe that the city of McKeesport is liable for any damages. The most important case of interest would be that of the National tube works where a single item would be \$100,000 for a group of furnaces.

## COXEYITES DROWNED.

At Least Fifteen Members of the Denver Commonwealths Found Watery Graves.

DENVER, Col., June 9.—At least fifteen members of the Denver contingent of Coxey's army lost their lives by drowning in the Platte river Thursday night. Coroner Martin yesterday morning went down to Brighton with coffins. He returned at noon, being unable to secure any of the bodies. Four have been washed ashore on the other side of the river, about eight miles this side of Brighton, at a point known as McKay's bridge. To reach them it would be necessary to travel about twenty miles out of the way, but he expects to recover them later on. The other men who are missing have also been drowned and their bodies carried far down the river. One man found drowned at Brighton has been identified as Charles McCune, a Missourian, a member of the Utah contingent.

They started off during Thursday until about 300 had taken passage in twenty-six boats, which had been built of light material by the Coxeyites here. The storms had greatly swollen the stream and a very high wind made navigation extremely dangerous. The first boats to arrive at Brighton made no report of the dangers, they had passed through and it was late at night that reports of trouble began to come to this city.

It was McKay's bridge about six miles about six miles above Brighton caused the most trouble. The flood poured under it with the speed of a mill race, and there, hidden by the stream, were barbed wires stretched across to prevent the passage of stock under the bridge at low water. The wire caught the boats and overturned them.

About 350 men are now encamped beside the river at Brighton drying their clothes and recuperating. A large amount of provisions arrived on the Union Pacific train consisting of crackers, hams, beans, tea and coffee.

A large number of men spent the night in the trees along the banks of the river, and several were left on islands. A searching party was sent out yesterday morning to help these men. The ranchmen along the banks also aided a large number of the unfortunates.

Yesterday noon an attempt was made to find out how many more were missing, and the rolls of the companies were called. Companies A, B and C reported all present or accounted for. Each man has astonishing stories to tell of the numbers that were drowned. The numbers range between five and twenty. No one, however, is able to tell the names of them. There might easily be a large number drowned, as the Platte is in such a condition it would be impossible to recover the bodies.

The Coxeyites will make no further attempt to go east by the water route.

Died at Sea.

QUEENSTOWN, June 9.—John Morrissey, a second cabin passenger on board the Cunard steamer Lucania, from New York, which arrived yesterday morning, died of consumption Thursday. His body was buried here.

Assigned.

NEW YORK, June 9.—Albert C. Woodruff and Henry Nitchie, surviving partners of E. B. Bartlett & Co., the prominent storage warehouse men of New York and Brooklyn, assigned yesterday to W. W. Goodrich without preferences.

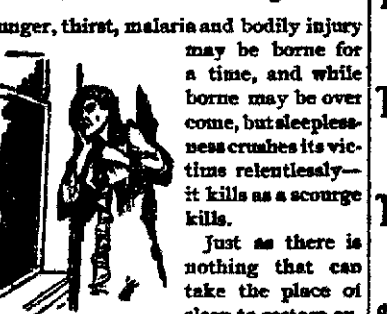

Arrived Safely at Port.

WASHINGTON, June 9.—The United States steamship Lancaster, for whose safety some anxiety has been felt, arrived at New York yesterday.

'CLAUDE SPENCER' is going to Europe, and says that he has retired from active life and is not interested in sugar. He has certainly raised enough cane to make his old age comfortable.

County Judge, WILLIAM L. HAMMER.  
County Treasurer, CHARLES H. PATTERSON.  
County Clerk, JAMES M. DODD.  
Sheriff, JERRY F. NICHOLSON.  
County Superintendent of Schools, JOHN G. KELLER.

The Democrats in the Oregon election managed to come in as the third party. Oh, shades of Jefferson.

The senate has appointed a com- mittee to inquire into the causes of the present business depression. This is in the nature of a post mortem to determine the cause of the death of the Democratic party.

The strike is fast assuming the features of anarchy and defiance of law, which will speedily eliminate from it all sympathy on the part of law abiding and law loving citizens, and when that condition is fully realized, the thing will be brought to a speedy conclusion, and that, without arbitration. No class of citizens can succeed long in this country in any movement which involves the open defiance of law, through a disregard for the rights of others.

A good many people are praising Con- gressman Springer for the stand he has taken against "wild cat" banking, and as a Democrat he is entitled to credit on the same principle that a man coming from bad stock turns out a useful and honored citizen. But when a Republi- can, who trans with a better civilization, opposes "wild cat" banking, nothing is thought of it for the very simple reason that he is not expected to do anything else.

### Rosser's Rot.

The following from the Chicago Tribune so completely covers the case, and so fully does justice to all parties concerned that it is worthy of careful reading:

In the swashbuckler harrangue which was made at the Richmond, Va., Con- federate monument dedication by the notorious Confederate cavalry re-creator, Thomas L. Rosser, that malignant rebel uttered the following infamous lie:

The army that devoured us was an army of substitutes. We killed all the substitutes, and the men whom they represented stopped at home and made money, and now draw pen- sions. (1). I despise the congressman who gives the United States money to a pensioner. This country can't stand when it makes one citizen support another. I shall never vote for a con- gressman who is in favor of government pen- sions. I will say to Massachusetts, you pay your pensioners as Virginia pays hers.

This is the kind of incendiary stuff which was applauded at Richmond, and if it is to be taken as an evidence of Vir- ginia reconstruction then there is much work to be done in that state yet before it will get the first glimpse of loyalty. The statement does not admit of argu- ment simply because it is a malignant lie inspired by Rosser's venomous hatred of the North. It is only necessary to re- member that as a cavalry officer his time was mainly spent in retreating from Sheridan's Union troopers. He never showed those troopers his face. They knew him only by his back. The only point in which he excelled them was in running, and he could run faster because he knew the country better. Little Phil Sheridan chased him every time he saw his back, and if his legs had been longer for Rosser had not started to run, the reason that he found that Sheridan was anywhere in that section of Virginia he would have made short work of him. And Little Phil was no "substitute," as this braggart professional re-creator well knows, nor were his troopers. They were volunteers of the sort Rosser never cared to encounter, hence his continual rearing up and down the country to get away from them. The trouble with Rosser is that he had two or three slaves out of whom he used to make a living before Sheridan and his troopers got after him, and now he has to make a liv- ing without them. But what kind of Union men are these people of Rich- mond who applauded such venomous lies as Rosser uttered at their celebration? Was there not one Confederate soldier there with magnanimity enough to shame enough to get up and publicly re- buke this fellow who never showed the enemy anything but his back, who spent his time in running away, and yet has the effrontery to prefix his name with "General?" General of what? General of the art of sprinting?

### Some Democratic Opinions.

It is with the deepest regret that we again call attention to the fact that the senior Democratic organ of this city once declared that if the Democrats put a tariff on the poor man's sugar it would cease to affiliate with that party, and afterward when the senate finance com- mittee put a tariff on sugar that paper took a complete somersault, and instead of landing outside of the Democratic party it came down on all fours in the midst of the Democratic party and de- clared that a duty on sugar was the best thing in the bill. It should have added the words, "for the sugar trust." It seems, however, that all the Democratic papers did not flip with the same facility and grace that the Review did, and fol- lowing is what a few of them are now saying about taxing the poor man's sugar for the benefit of the sugar trust: Springfield Republican (Ind. Dem.):

Only on the supposition that the whole Democratic party is under obligation to the trust in the action of the majority yesterday explicable. There is no other way to account for this extraordinary course. But the people will have to be given a very different explanation before they lend further support to a party thus committed. A more shameless violation of the popular confidence was never seen.

Indianapolis Sentinel (Dem.): How much truth there may be in the reports of sugar speculations by senators will perhaps never be known, but there is enough known to disgust the people with this concession. The statement, reiterated by several Democratic sen- ators, that the bill could not pass the senate without this concession, is conclusive evidence that there are senators who call themselves Democrats who are the tools of this infamous trust.

St. Paul Globe (Dem.): When great money interests are at stake; when there are millions of dollars depending on legislation, and then when men defy the mandate of their own party and do what the party has expressly commanded them not to do, and vote for measures in the direct and sole interest of such crea- tions as the sugar trust, they cannot complain if it is believed by men not prone to unjust suspicion that the money of the briber has touched their palms.

### The Loyal Democracy.

The following is the letter sent but by the Democratic state central committee frequently referred to by the Republi- can. It is an extraordinary letter and ought to be read by every Republican in Macon county, who is importuned to vote any part of the Democratic ticket:

"HEADQUARTERS DEMOCRATIC STATE CENTRAL COMMITTEE OF ILLINOIS, (DEAR P. Phelps, Chairman, Theodore Nelson, Secretary, W. B. Brinton, Treasurer, CHICAGO, Ill., Jan. 18, 1894.—The Hon. John M. Palmer, U. S. Senator Washington, D. C.—DEAR SIR: I am directed by the Democratic state central com- mittee of Illinois to say to you and other mem- bers of the Illinois delegation in Congress that at a meeting of said committee, held on the 12th instant, it was the sentiment of said committee that it would strengthen the hands of the Dem- ocratic party in this state if, as soon as is con- sistent with the proper discharge of other im- portant public business, Republican officers in terms of office have expired, or against whom just and valid charges have been preferred, were removed from such positions now held by them, and Democrats appointed to fill the same. This action would, in the opinion of said committee, remove dissensions and unite Democrats in har- monious action for the success of Democratic principles.

"Anything which you can consistently do lead- ing speedily to this accomplishment will, in the opinion of the committee, be for the advance- ment of the best interest of the Democratic party and of the country. Respectfully,  
"THEO. NELSON."

Any Republican who is inclined to vote any part of the Democratic county ticket, should apply the last paragraph of the letter to himself. This is what it says to him:

Anything which you (as a Republican) can consistently do leading speedily to this accomplishment, (putting Democ- rats in office instead of Republicans) will, in the opinion of the (Democratic) committee be for the advancement of the best interests of the Democratic party and of the country.

### "SAWING WOOD" AGAIN.

Dick Roland Swinging a Razor as  
Usual at His Shop.

The unsuccessful attempt of Dick  
Roland to commit suicide by the mor-  
phine route at his shop yesterday after-  
noon resulted in one good thing for him,  
provided the drug was taken for ad-  
vertising purposes. The incident attracted  
a big crowd for several hours, and all of  
the papers have located the shop. The  
doctors saved Dick's life, and by night  
he was out of all danger, though he was  
ungrateful to Dr. King for what he had  
done for him, assisted by Dr. Dixon and  
Dr. Harvey. Roland has had grievous  
trouble of a domestic nature. It has  
worried him more than words can ex-  
press. He and his wife have separated.  
Dick was trying to bring about a re-  
conciliation, but Mrs. Roland firmly  
persisted in refusing to be a party to an  
interview or to answer any notes sent  
her. Then it was that Dick took the  
morphine. He took it deliberately and  
then stretched himself out on the shop  
chair to die. An elderly woman, Mrs.  
Brownlee, living near the shop, was told  
what Roland had done, and the physi-  
cians were summoned.

To-day Mr. Roland is attending to  
business as usual. He will not talk  
about his troubles. Mrs. Roland is said  
to have left the city last night for Chi-  
cago.

### M'ROBERTS-BROWN.

A Hoosier Wedding of Interest to  
"Republican" Readers.

The many Decatur friends of the  
couple will be pleased to learn that John  
R. McRoberts, of Decatur, and Miss  
Minnie E. Brown, of Tolono, Ill., were  
married Thursday evening, June 7th, at  
Crawfordsville, Ind., by Rev. Dr. Tucker,  
of the Methodist church. The bride is  
quite well-known in this city as a hand-  
some and amiable young lady, and all  
of her many friends will wish her joy  
while they will extend the same good  
wishes to John. Mr. McRoberts is the  
eldest son of Mr. and Mrs. Samuel Mc-  
Roberts, and under ex-Postmaster Jack  
was the mailing clerk in the Decatur  
postoffice. Now he is one of the head  
clerks in the railway mail service.  
Doubtless Mr. McRoberts and bride will  
make an early visit to Decatur when  
their friends will offer personal con-  
gratulations.

### Evening Parties.

Mrs. J. M. Brownback gave a deli-  
cious entertainment at her home in Blue  
Mound yesterday afternoon to a number  
of friends. From this city a number of  
ladies went over, among them being  
Mesdames Frank P. Roach, J. M. Marie,  
O. B. Gorin, Cass Chenoweth, Furman  
Roach and Frank Curtis.

Miss Lucy Midland, who has been  
visiting Miss Goldie Miller of East Wil-  
liam street, left for Chicago last evening.  
A farewell party was given her at the  
home of Miss Miller. A most enjoyable  
evening was spent. Among those  
present were Misses Baldrige, Maude  
and Jessie Felton, Mary and Minnie  
Swanson, Minnie Helm, Ollie Cox, Bessie  
Seivers, Alexander Sanderson, William  
Fulton, Harry Hendricks, Frank Mere-  
dith, Steven Dellinger, M. Martin,  
Warren C. Servers and Mr. Helm.

Miss Josephine Carder entertained  
friends at her home at the Roby last  
night. The party was given in honor of  
her guest, Miss Corinne Race, and the  
evening was a very pleasant one for the  
hostess and her guests. Until 11 o'clock  
progressive euchre was the amusement,  
after which they enjoyed dancing. Re-  
freshments were served during the even-  
ing. The company included Misses Co-  
rinne Race of Pana, Julia Nicholson,  
Maude McDonald, Nannie Truax, Gussie  
Ferguson, Claudia Traugher, Margaret  
Murphy, Josephine Carder, and Henry  
Crowell, Will Vawter, Arthur Miller, Dr.  
Carlton, J. Goodson, Cass Nicholson,  
Syd James, and Mr. Chaffee of Pana.

### Ho! Princes of the Orient.

The sands of the Oriental desert are  
again disturbed and many weary pil-  
grims are clamoring at our portals for  
admission to our Oriental realm. There-  
fore I, G. A. Ahrens, Grand Pa da Sha  
of Lucullus Council No. 1, do hereby  
proclaim that a meeting of Lucullus  
Council will be held Wednesday, June  
13th, at 7.30 o'clock p. m., at Cour de  
Leon hall. All pilgrims desiring to be  
initiated who have not yet made applica-  
tion, will do so at once. Application  
can be made of M. Heitbrun, A. T. Grist  
and at Chas. J. Bryan's. Let many  
princes be present, as business of im-  
portance is a feature of the delibera-  
tions.

### FRIENDSHIP, LOVE, TRUTH.

Mrs. Torrey's Grateful Tribute to  
Odd Fellowship.

The following letter explains itself,  
and is a deserved tribute to a worthy  
order:  
D. E. Baldwin, Decatur, Ill.  
DEAR SIR: Will you allow me, through  
yourself, to express to your brethren in  
Odd Fellowship my thorough apprecia-  
tion and deep gratitude for all their  
kindness shown to me during these last  
lonely days in Decatur.

Mr. Torrey was a firm friend of the  
order, a believer in her teachings, a  
brother to her members, and surely her  
principles were most beautifully mani-  
fested toward myself.  
It was Friendship that bade you stand  
beside that casket with bowed head  
while the rain was falling upon you.  
It was Love that made your hands lift  
so tenderly the form of my dear one.  
It was Truth personified that prompted  
you to follow in the darkness of the  
night, even to the last going away.

I ask that Friendship be sweet, Love  
so beautiful and Truth so noble may  
meet you every one as you journey the  
pathway of life.

Sincerely and gratefully,  
Mrs. VERA R. TORREY  
Norwich, N. Y., May 25, 1894.

### COST OF PUPILS.

#### Report of the Superintendent of Public Instruction in Illinois.

In his report now under preparation  
the state superintendent of public in-  
struction has compiled some interesting  
statistics as to the cost of maintaining  
pupils in high schools of the state. The  
cost is highest in Chicago and lowest in  
the high school at Ashland, Cass county.  
The items upon which the comparison  
is made are as follows:

Cost for pupil enrolled for tuition,  
highest, \$91.63, in South Chicago, low-  
est, \$6.83, in the Ashland high school;  
average for the state, \$30.39. Cost per  
pupil enrolled for tuition and incidental  
expenses, South Chicago, \$101.17; Ash-  
land, \$9.05; average for the state, \$33.77.  
Cost per pupil on average enrollment for  
tuition, South Chicago, \$113.40, Ash-  
land, \$9.00; average for the state, \$34.60.  
Cost per pupil on average enrollment for  
tuition and incidental expenses, South  
Chicago, \$135.21; Ashland, \$11.00; average  
for the state, \$38.45.

### Cheap Gas and Electricity.

Some weeks ago the gas company at  
Springfield reduced the price of gas to  
\$1.00 per 1000 feet. It was a voluntary  
act on the part of the company.

Now comes another reduction. At a  
meeting of the board of directors of the  
Springfield Electric Light and Power  
company, it was decided to reduce the  
price on commercial arc lights on the  
midnight circuit from \$12.50 to \$10 and  
on arc lights burning until 9 o'clock five  
cents in the week and Saturday nights  
until 10 o'clock, to \$3 per month, both  
to bear a discount of 10 per cent if paid  
on or before the 10th of the month. No  
discount is to be allowed unless bills are  
paid on or before the 10th of the month.

THERE was an exciting time for a few  
moments in Justice Hammer's court  
yesterday at the trial of The People  
vs. Jack Lilly, Wabash detective. Jack  
was charged with having slapped a Mrs.  
Andrew Yagush, whom he had found  
trespassing on Wabash ground. It was  
a jury trial, and Attorney Gray re-  
presented the defendant. Gray put a ques-  
tion to Lilly which was calculated to rile  
him, and the witness made a demonstra-  
tion to wipe up the floor with the attor-  
ney. But for the interference of Con-  
stable Poor there would have been a  
serious scrimmage. The jury failed to  
agree and was discharged.

### Decorative China Painting.

Miss Celia Katz, of Chicago, who will  
soon organize a class in decorative china  
painting in Decatur, desires that the  
address of all who wish to become mem-  
bers of the class shall be left at the jew-  
elry store of Curtis Bros., where samples  
of the young lady's work have been dis-  
played for several days. Miss Katz will  
arrive in the city on Monday, and can be  
personally seen at 500 West Decatur  
street, by those desiring to receive fun-  
damental or advanced instructions from  
her, or she will call upon those who will  
leave their addresses at the store. 6-dtf

THE Forest Grove school, west of Oak-  
land Park, closed yesterday with a pro-  
gramme and picnic. The dinner was  
spread on the grass in the yard, and  
children, parents and teacher enjoyed  
themselves heartily. The programme  
consisted of songs, recitations and in-  
strumental music. After the programme  
ice-cream and lemonade was served to  
all present. The rest of the day was  
spent in games and amusements. Mr.  
File has the school again for the next  
year.

Ten funeral of little Gladys Lucille,  
the beloved daughter of Mr. and Mrs. J.  
A. Sawyer, of Salona Place, took place  
from their residence yesterday afternoon  
at half past two o'clock, interment in  
Greenwood cemetery. Her death was  
the result of the removal of an eye on  
March 3d, from which she never recovered.  
Her sufferings were most intense.

Tar Rev. W. W. Love, of St. Louis,  
will officiate at St. John's Episcopal  
church to-morrow. He will probably  
accept the call to become the permanent  
rector of the church.

### THE POOR CHINCH BUG

A Scientific Method of War-  
fare Against These  
Pests.

Springfield Journal.  
The state board of agriculture has  
given out for publication a matter  
which is of public interest to farmers  
and to the public generally. For some  
weeks past the State Entomologist,  
Prof. S. A. Forbes, has been receiving  
advice from at least twenty-four  
counties in the Central and Southern  
portion of the state telling of the dam-  
age that has been done by chinch bugs  
to small grains and the injury that is yet  
likely to be done. These correspondents  
have asked Prof. Forbes to send them  
material for the introduction of con-  
tagious diseases among the bugs in order  
that they might be killed. The matter  
has been looked upon as a theory.  
The experiments of Prof. Forbes have  
established this plan for the extermina-  
tion of bugs on a scientific basis and the  
agricultural experiment station at Cham-  
paign has made an appropriation in or-  
der that Prof. Forbes may carry on the  
work. In return the latter invites those  
who desire to send to him from 1,000 to  
5,000 live chinch bugs in a tight tin box  
with a capacity of a quart partially filled  
with green herbage. The bugs should be  
sent by express. Prof. Forbes will  
inoculate the bugs and return them and  
the farmer can then turn them loose to  
get in their deadly work on other bugs  
through the medium of a contagious dis-  
ease. The same method, it is thought,  
can be applied to other pests including  
the seventeen year locusts.

### Great Loss of Life

Will be the result of an armed collision  
between the striking miners and the  
militia. The state soldiers have been  
chased from pillar to post until they are  
in a decidedly ugly mood, and it is feared  
will use their weapons on slight provoca-  
tion. This trouble is nothing to the  
commotion which Chas. E. Morgan, 118  
Merchant street is making on clothing,  
hats and gents furnishing goods. He  
has literally cut the heart out of former  
high prices, but as yet no one has been  
hurt.

## A PANIC AT PANA.

Miners on the March to the Town  
to Do Ugly Work.

Sheriff and Citizens Armed to Keep the  
Invaders Away—400 Miners Come Out  
for Safety at Noon.

There were rumors of war in Decatur last night at 9 o'clock, when a telegram came from Springfield to have the Decatur Guards under arms ready to move to Pana at a moment's notice. The Guards were drilling at the time, and they remained in the armory all night. The Guards are still under marching orders, and are ready to leave on short notice in case of serious trouble.

The orders came because it was known at Springfield that 500 or more strikers had started for Pana, many of them armed, for the avowed purpose of compelling the men to quit work. What the marchers did en route is told in the telegram given below.

### HOW THEY LEFT SPRINGFIELD.

SPRINGFIELD, Ill., June 8.—All day long miners from Athens, Petersburg, Riverton and other shafts in this vicinity were congregating in the outskirts of the city with the avowed intention of going to Pana to compel the men there to suspend work. The invading miners who gathered here were quiet and orderly, but they had perhaps forty or fifty rifles among them and as many more shot guns, and all were armed with clubs or heavy canes, if nothing more. They left the city in squads of forty or fifty during the forenoon, taking the road towards Pana and keeping along the line of the Baltimore and Ohio Southwestern railroad. During the morning two wagons loaded with provisions were started in the same direction, and other squads of men left during the afternoon. While they remained here the men, who were mostly forgers, were drilling in the manual of arms, and appeared to be perfecting an organization.

At 3 p. m. General Freight Agent Townsley, of the Baltimore and Ohio Southwestern applied to Sheriff Murray for protection to the company's trains and property, and the sheriff sent deputies to investigate the situation. The miners, however, show no desire to capture trains or commit any depredations near this city, their plan evidently being to capture trains at small, out-of-the-way places where there would be no forces to resist them. Word was received from different points along the line that squads of men had passed those places, saying they were bound for Pana.

The governor received a message at 9:39 p. m. from the sheriff of Christian county saying in substance that a mob had taken possession of a B. and O. S. train at Edinburg and refused to let it move; that miners were approaching; that the railroad authorities had asked protection, which he was unable to give because he had neither arms nor ammunition with which to arm deputies. He therefore asked to have militia sent out. In response the governor telegraphed Capt. J. E. Hogan of Company B, Fifth Infantry, at Taylorville, to proceed with his company at once to Edinburg and assist the sheriff of Christian county in releasing the Baltimore and Ohio train and in executing the law there.

### UNEASINESS AT PANA.

PANA, Ill., June 8.—Pana is once more in fear of attack on account of telegrams received by the deputy sheriff and mayor to the effect that 400 striking miners were on their way to Pana from the Springfield district. The reports have been substantiated by the trainmen, who say they ran through squads of miners between here and there. Two hundred attempted to board the Baltimore and Ohio passenger train No. 26, due here at 6 o'clock this evening at a station this side of Springfield, but were not successful. Later advices from Baltimore and Ohio Trainmaster Burlington state that they are on their way here, some walking, some in wagons with provisions, and are armed with clubs, canes, shotguns, etc.

The Pana mines have been running a few days at their full capacity. Large numbers of miners from other districts have come in and secured work. There are in Pana large numbers of strangers, evidently strikers, who have been coming in quietly for two or three days. The local freight due here at 8:30 from Springfield was captured by the strikers at Edinburg, but is sidetracked there. The "Flyer" due here at 9 o'clock was not molested. The trainmen say there are 400 men bound for Pana and they will be here by morning. The deputy sheriff and city authorities are doing all they can with the means at hand to prevent any disturbance, but it is evident that there will be trouble as soon as these strikers arrive.

## PANIC AT PANA.

The Strikers Ten Miles Away—  
Only 300 in the Party.

(SPECIAL TO THE REPUBLICAN.)

PANA, June 9.—A high pitch of excitement is on in Pana to-day. It began last night and has since remained unabated. The arrival of the strikers from Springfield is expected at any hour, but Deputy Sheriffs Drennan, of Taylorville, and Roseberry, of Pana, with an armed force of 100 deputies, are ready for them. The plan for the armed force is to march out in a body and prevent the entrance of the strikers to the city. When last heard from the 200 strikers were at Millersville, ten miles west, marching in a body for Pana. They are expected to arrive between four and five o'clock this evening. Serious trouble is apprehended when they come in sight.

To-day there were 600 men at work in the mines. All came out at noon and they are out now. They did not quit work. They came out for personal safety in case of trouble. They will re-

turn to work when assured that their lives will not be in danger.

There has been no call for troops yet, but the appeal may be sent in before night.

### STRIKE NOTES.

In the scrimmage at Edinburg last night strikers fired a bullet at the engineer in charge of the locomotive, and Conductor Ireland had a lively time of it trying to keep the miners off the mail train. When he warned them of possible trouble if they interfered with the mails, they let the train go through.

A telegram from Pana says many Decatur miners have applied for work in the mines at that point, and that they have been given places. What's the matter with working in Decatur?

There was something of a stir at Pekin last night when the story got out that the mob was marching to the town to tear down the jail, that striking miners confined there might be liberated. Militia guarded the jail, and the sheriff had eight couriers out on horseback. Fifty more men who have been indicted are to be arrested.

If the militia are called to Pana and there is trouble, they will shoot to kill.

## DAY IN CONGRESS

Progress Made With the  
Tariff Bill in the Senate.

OR PALMER, OF ILLINOIS, AT RAY.

Majority Charged With Sectional-  
ism—Consideration of the Indian  
Appropriation Bill Renewed in the  
House—A Night Session.

### SENATE.

WASHINGTON, June 8.—The resolution offered yesterday by Mr. Hoar in reference to relinquishing the claim of the United States against the estate of Leland Stanford, of California, was laid before the senate, and Mr. Hoar modified it so as to simply instruct the judiciary committee to inquire and report, as soon as may be, whether it is expedient that the claim be forthwith relinquished and put at rest.

Mr. Blackburn who opposed the resolution yesterday, said that he had no objection to it as modified.

Mr. White explained the status of the claim. Under the statutes of California, whenever the estate of a decedent exceeds \$10,000, action had to be published to creditors to present their claims. Those claims had to be presented whether due or not due, whether contingent or otherwise. Hence, on the death of Senator Stanford, and the issue of letters testamentary, it became the duty of the government if it desired to enforce any claim in the future against the estate to present the claim for allowance or rejection. That course had been forced on the attorney general by the situation and that attorney had merely complied with the law and done his duty. Had he not done so, the claim would have been entirely waived.

After some debate the resolution was laid on the table by a vote of 29 to 19. The tariff bill was then taken up, and Mr. Cullum spoke against the bill.

Senator Palmer replied to his colleague, and drifted into war memories asserted that the manufacturing states of the north became so prosperous during the war that many of them hired negroes as substitutes for their own citizens. He told of one incident when in his camp on the Chattahoochee a man came there from one of the New York towns and told him that he had come south to get negroes to fill up the ranks of his town. "Why do you want to come here?" he was asked and the reply was: "Wages are so high with us and labor is so much needed that we cannot afford to send white men into the army, and we want negroes to fill the ranks."

Mr. Palmer told him that if he repeated that sentiment he would be chucked into the Chattahoochee river. And I felt like doing it then."

Mr. Palmer added indignantly:

"To what party did the senator from Illinois belong at that particular time?" Mr. Carey asked.

"I belonged to the party that wore the blue," was the answer.

"To what political party?" Mr. Carey persisted.

"I was a soldier, Mr. Palmer, and I proudly replied as he crossed toward the republican side of the chamber. I was fighting for the country."

"I belonged to no party except the party which won the blue and supported the war."

"On what political party ticket did you run when you were elected governor of Illinois?" Mr. Carey asked.

"To the republican party," was the answer.

"Then you became a member of that party?" Mr. Carey went on, "after you knew all the wrong you say it had done?"

"I belonged to that party," Mr. Palmer said, "but I never lost any contempt for the protectionists who had to be bought, to going into war and I never lost my contempt for those who hired negroes to take their places in the ranks of the army."

What did you think of the democrats who hired substitutes?" Mr. Carey asked.

"I could understand," Mr. Palmer replied, "how a democrat might do it. A weak-kneed democrat and a weak-kneed republican are very much alike."

The present president of the United States," Mr. Carey suggested, "must have been weak-kneed about that time."

"Yes, I think he was," Mr. Palmer admitted, and he suggested that Mr. Blair had been in the same category.

The senate proceeded to the practical question of voting on the bill by paragraphs—the first question being paragraph 180 as follows:

Buckwheat corn or maize, common oats, rye, four wheat and wheat flour 20 per cent. ad valorem but each of the above products shall be admitted free of duty from any country which imposes no import duty on the like product when exported from the United States.

The paragraph was then agreed to.

The next paragraph—No 181—"Barley and barley malt 25 per cent. ad valorem."

The committee amendment to make it 20 per cent. was agreed to.

The next paragraph—macaroni, vermicelli and all similar preparations 25 per cent. ad valorem. The committee amendment to make it 20 per cent. was agreed to.

The next paragraph was 182—as to rice. The bill as it passed the house and as it was reported from the finance committee made the rate on clean rice 14 cents a pound, on unclean rice 1 cent and on rice flour and rice meal one-quarter of a cent a pound and on paddy three-quarters of a cent a pound.

Mr. Jones who had on behalf of the finance committee offered an amendment reducing the rate on unclean rice to three-quarters of a cent a pound and on paddy to one-half cent a pound. That amendment which was thereupon renewed by Mr. Allison. The amendment was rejected.

Mr. Allison made an argument against the rate duties being too high. He admitted that they were lower than the rates on the McKinley act, but still as compared with the other articles on the agricultural schedule the rates were nearly double.

Mr. Hale made some bitter comments upon "the mendicants from Louisiana and other southern states who had voted to put lumber on the free list while sugar had to be highly protected."

Mr. Chandler repeated Mr. Hale's remarks as to southern senators being mendicants, for high rates of duty on rice and sugar. The duty on rice, he said, had been under the law of 1892 2 1/2 per cent. hundred pounds under the McKinley bill, so it passed the house. It was \$4.50.

Mr. Dolph moved to apply to rice the same provision as was applied to wheat, oats and admitting it free of duty from countries that do not impose an import duty on rice from the United States.

After some discussion the vote was taken on Mr. Dolph's amendment and it was rejected, yeas 14, nays 64.

Mr. Hale read the name of the democratic senators who voted no on Mr. Dolph's amendment and the names of the democratic senators who had voted yes on exactly the same provision in the paragraph as to buckwheat, oats, etc. Within twenty-four hours he said those senators had every one of them changed their tails and voted the other way. The people of the north, he said, would take account of the matter. Senators on the other side were renewing the old story of thirty-five years ago and were driving the north back to a point beyond which no more could be borne. The day of reckoning was not here it was somewhere else. The people of the north would take a stern account of the matter and would hold the democratic party to a severe reckoning.

An interchange of political and personal attacks continued for some time until finally the rice paragraph was agreed to.

And then came paragraph 184—"Butter and substituted therefor. The house bill fixed it at a quarter of a cent, and the finance committee agreed to leave it at that. Mr. Pettigrew moved to amend it to one-half cent. The amendment was rejected, yeas 14, nays 64.

Then, Mr. Palmer moved to amend paragraph 185, was

by the Deputy Sheriffs.

CRIPPLE CREEK, Col., June 8.—The long strike in Cripple Creek is ended and the settlement has been effected without bloodshed. At 10 o'clock yesterday morning such a consummation seemed among the most impossible things that were liable to happen.

About 9 o'clock the deputies began leaving camp in squads of 100 or more, ostensibly for the purpose of scouting, but really to make a concerted attack unknown to the militia on Bull Hill. Fully two-thirds of the entire force had thus got out of camp before the suspicions of Gen. Brooks were aroused. Then he gave orders for the militia to fall in and within a few minutes the latter were in hot pursuit.

The deputies had arranged to make the north side of the mountain their main point of attack, and with this in view had drawn up the bulk of their force on the Colorado Springs road at its base. The movement against this point, however, was to be supported by sorties from three other sides, and the balance of the force were distributed accordingly.

Preparations were about complete for the attack when the militia came down upon the main body of the deputies who were ordered by Gen. Brooks back to camp. The deputies were not inclined to obey the order, but being assured that the governor's instructions to the general were to turn his cannon upon them if necessary to protect the miners from attack, they withdrew and ordered in their auxiliary detachments. They are now all in camp at Gillette.

Meanwhile Gen. Brooks continued the march to Bull Hill, where he found the miners down upon to receive him. He made them a speech, in which he assured them of the protection of the militia, and asked them to submit to the service of warrants by the sheriff.

It was agreed that the sheriff and two deputies should go upon the hill to-day unarmed and arrest parties for whom the former has warrants. A great number of these left Thursday night for parts unknown, and all the others prepared to leave last night. The miners have all laid down their arms, and the labor trouble is considered practically at an end.

### SEVEN-ROOM COTTAGE.

Plans of a Neat, Convenient and  
Roomy Home.

Only Materials of the First Quality to Be  
Used in Its Construction—Its Cost  
Should Not Exceed Fifteen  
Hundred Dollars.

This is a very desirable, neat, con-  
venient and roomy, yet cheap cottage.  
The plan has four good rooms down-  
stairs and three above, besides the neces-  
saries, such as pantry, entrance and close-  
ets and a large attic over the kitchen,  
which could be finished and made into

a good room if necessary. It has been  
erected and fully finished complete at  
earthage, III, for a total cost of \$1,500,  
including the foundation. Construc-  
tionally the house is of the best, the  
materials being of first-class quality.

The frame is of pine, sheathed with  
shiplap overlaid with paper. The out-  
side finish is of pine with cypress siding  
on the sides and shingles of the same  
material on the gables.

Referring to the floor plans, the front  
entrance is found to be from a porch  
through the vestibule into the parlor  
or sitting-room. These rooms are each  
of good size. To the left of the sitting-

room is a bedroom 11x13 1/2 feet. The  
sitting room and parlor are connected  
by a sliding door, enabling them to be  
thrown together on occasion. We  
pass from the sitting-room into the  
kitchen, which is quite large and in-  
tended to be used also as a dining-room.  
A bath room and well-fitted pantry  
open off this room, and stairs to the cel-  
lar lead down from here under the main  
flight, which rises from an entry be-  
tween the kitchen and sitting-room  
and rear porch.

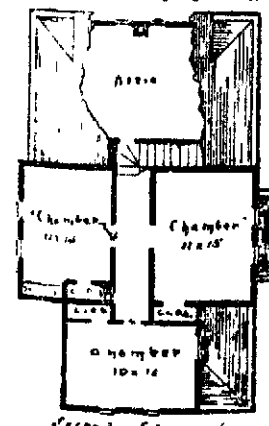

On the second floor a hall furnishes  
entrance to three well lighted and ven-  
tilated chambers of ample size.

The timbers are sound and well sea-  
soned, sills 6x8; first floor joist 2x6, for

joist 2x6; main house, and 2x6 for  
attic joist. All to be spaced 16  
inches apart. The height of stories are  
first 8 feet 6 inches; first story, 9 feet  
6 inches; second story, 8 feet 6 inches.  
The floors throughout are  
of 1 1/2 inch pine flooring, well seasoned  
and well laid. The doors are all  
solid pine. Outside and sliding doors  
1 1/2 inch thick, all other interior doors  
1 1/4 inch thick. All principal doors  
having transoms over them. All win-  
dows except sash, to be hung with  
weights. The plastering is of three  
coat work of the best materials and  
workmanship. The interior finish for  
all of first floor is of S. Y. pine, smooth  
worked and finished natural. Drawers  
are placed under the projecting window

in the sitting-room and the recessed  
windows in the bedroom. A sink and  
drain tub are placed in the kitchen.  
The finish of the second floor and  
closets is of good ordinary white pine  
and painted. The hardware is of best  
quality and workmanship throughout.  
The sliding doors are hung with Pres-  
ent hangers. The painting outside is  
three coat work, done in best manner,  
of best materials, hand mixed, of colors  
selected to best harmonize with the sur-  
roundings.

In Case of Poisoning.  
Such poisoned wounds, makes your  
mouth sore; enlarge the wound, if  
better, cut out the part without delay;  
hold the wounded part as long as you  
can to a hot cork or stick of fire.

### FACTS ABOUT A WATCH.

How Perfect Mechanism Is Made and Put  
Together.

The watch carried by the average  
man is composed of 98 pieces, and its  
manufacture embraces more than 2,000  
distinct and separate operations.

Some of the smaller screws are so  
minute that the unaided eye cannot  
distinguish them from steel filings or  
specks of dirt.

Under a powerful magnifying glass  
a perfect screw is revealed. The slit  
in the head is 2-1000ths of an inch  
wide. It takes 208,000 of these screws  
to weigh a pound, and a pound is  
worth \$1,585.

The hairspring is a strip of the finest  
steel, about 9 1/2 inches long, 1-100th  
inch wide and 27-10,000ths of an inch  
thick. It is coiled up in spiral form  
and finely tempered.

The process of tempering these  
springs was long held as a secret by  
the few fortunate ones possessing it,  
and even now is not generally known.

Their manufacture requires great  
skill and care. The strip is gauged to  
20-1,000ths of an inch, but no measur-  
ing instrument has as yet been devised  
capable of fine enough gauging to de-  
termine before hand by the size of the  
strip what the strength of the finished  
spring will be. A 20-1,000th part of  
an inch difference in the thickness of  
the strip makes a difference in the run-  
ning of the watch of about six minutes  
an hour.

The value of these springs, when  
finished and placed in watches, is  
enormous in proportion to the material  
from which they are made. A com-  
parison will give a good idea.

A ton of steel made up into hair  
springs when in watches is worth more  
than twelve and a half times the value  
of the same weight in pure gold.

Hairspring wires weigh one-twenti-  
eth of a grain to an inch. One mile of  
wire weighs less than half a pound.  
The balance gives five vibrations  
every second, 300 every minute, 18,000  
every hour, 432,000 every day and 157,-  
680,000 every year.

At each vibration it revolves about  
one and one-fourth times, which  
make 107,100,000 revolutions every  
year.

In order that we may better under-  
stand the stupendous amount of labor  
performed by these tiny works, let us  
make a pertinent comparison.

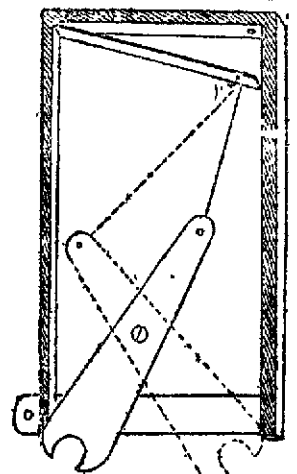

Take, for illustration, a locomotive  
with 8-foot driving wheels. Let its  
wheels be run until they have given  
the same number of revolutions that a  
watch does in one year and they will  
have covered a distance equal to twen-  
ty-eight complete circuits of the earth.

All this a watch does without other  
attention than winding once every  
twenty-four hours.—New Moon.

### FASTENING FOR DOORS.

A Possible Improvement on Knobs and  
Latches for Certain Uses.

Dr. H. M. Shaw, of Genoa, N. Y., a  
dentist for many years, but also a  
pattern-maker and a man of some me-  
chanical ingenuity, has suggested a  
substitute for the ordinary knob and  
latch for such doors as do not require  
locking. Upon the edge of the door  
itself he would place, at the proper  
height, merely a small metal or wooden  
projection. Opposite thereto, in a re-  
cess in the jamb, he would put a small  
upright lever, pivoted, as shown in our  
diagram, and having a notch cut in the  
rounded upper end. To the lower end  
is attached a stiff spring, whose up-  
ward pressure tends to throw the lever  
to one side or the other of a perpendi-

cular, and to hold it in either of the two  
slanting positions indicated by the full  
lines and dotted lines of the diagram.  
In opening and closing the door, the  
projection would engage the notch in  
the lever. Dr. Shaw believes that this  
plan would keep the door from rattling  
in the wind, and make it fit more  
 snugly against the jamb-casing, thus  
excluding flies, ants and drafts of air.  
It would also involve less carpenter  
work. A door thus fastened could be  
opened with a push, without turning a  
knob or lifting a latch.—N. Y. Tribune.

### History of the Thermometer.

Hero of Alexandria, who lived about  
150 years before Christ, is said to have  
been the real inventor of the rude  
"weather tester" used for measuring  
the heat of the atmosphere, which was  
continued in use until about the time  
of the opening of the seventeenth cen-  
tury. About the date last mentioned  
it was reduced to an instrument more  
convenient and accurate by one San-  
tonio, an Italian, and was afterwards  
much improved by various scientists,  
especially by Fahrenheit, who, in 1720,  
added the scale and other important  
details, converting the old "weather  
tester" into an apparatus of much use-  
fulness.

### Vitality of Insect Eggs.

The eggs of insects have greater  
vitality than any other life germs now  
known. After exposing silkworm eggs to  
a temperature of 38 degrees below  
the zero of a Fahrenheit thermometer  
for five hours, Spallanzani, the great  
entomologist, was surprised to find that  
they had not been frozen in the least,  
and that their vitality was not in the  
least impaired. On another occasion,  
he treated a dozen grasshopper eggs to  
a temperature of 50 degrees below zero  
without injuring the life germs in the  
slightest degree.

### The Discovery Saved His Life.

Mr. G. Gaillouette, Druggist, Beavers-  
ville, Ill., says: "Do Dr. King's New Dis-  
covery I owe my life. Was taken with  
La Grippe and tried all the physicians  
for miles about, but of no avail and was  
given up and told I could not live. Hav-  
ing Dr. King's new Discovery in my store  
I sent for a bottle and began its use, and  
from the first dose began to get better;  
and after using three bottles was up and  
about again. It is worth its weight in  
gold. We don't keep store or house  
without it." Get a free trial bottle at
